

Instructions for Authors

Submission of Manuscripts

One original of each review manuscript should be submitted in English to Wolfgang Sigmund, Professor of Materials Science, North South Drive, P.O. Box 116400, University of Florida, Gainesville, Florida, 32611-6400; phone: (352) 846-3343; E-mail: wsgm@mse.ufl.edu. Authors are strongly encouraged to submit manuscripts via email. Submit files using MS Word or Adobe pdf and clearly label the authors' name. There is a size limit of 10 MB for email submissions, an ftp site is available for larger files to upload the manuscript and figures. Site information along with passwords will be provided on email request.

Authors are responsible for obtaining permission to reproduce copyrighted material from other sources and are required to sign an agreement for the transfer of copyright to the publisher. All accepted manuscripts, artwork, and photographs become the property of the publisher.

All parts of the manuscript should be typewritten with at least 12 point font, double-spaced, with margins of at least one inch on all sides. Number manuscript pages consecutively throughout the paper. A cover page should be included containing all authors' full names, addresses, phone and fax numbers, and email addresses. Authors should also supply a shortened version of the title suitable for the running head, not exceeding 50 character spaces. Each article should be summarized in an abstract of not more than 300 words. Three to six keywords or terms not in the title will assist indexers in cross-indexing your article. Avoid abbreviations, diagrams, and reference to the text.

Reviewers

A list of four potential reviewers, including full contact information, should be supplied.

References

References to the literature and all notes regardless of their nature (except those in tables) should be numbered in one consecutive series, repetition of references being avoided by using the superscript number corresponding to the original reference. **Reference numbers in the text should be typed as superscript numbers and follow terminal punctuation.** Bibliographic references to classified documents and reports or to unpublished material not generally available to the scientific public should not be used. Literature references should be arranged and punctuated as follows:

1. **Jackson, H.**, The sacral arcuate lines in upper sacral fractures, *Radiology*, 145, 35, 1982.

References to books should include author, title, volume, publisher, date of publication, and relevant page ranges. Thus:

2. **Rockwood, C. A., Jr., Wilkins, K. E., and King, R. E.**, Eds., *Fractures in Children*, Vol. 3, J. B. Lippincott, Philadelphia, 1975.
3. **Houghton, V. M. and Williams, A. L.**, Intervertebral discs, in *Computed Tomography of the Spine*, Houghton, V. M. and Williams, A. L., Eds., C. V. Mosby Co., St. Louis, 1982, 122.

Italic or boldface type should be clearly indicated, and Greek or unusual characters should be written plainly or explained by annotations. Simple fractional expressions should be written with a slant line rather than in the usual manner, so that only a single line of type is required.

Illustrations

Illustrations submitted (line drawings, halftones, photos, photomicrographs, etc.) should be clean originals or digital files. Digital files are recommended for highest quality reproduction and should follow these guidelines:

- 300 dpi or higher
- sized to fit on journal page
- EPS, TIFF, or PSD format only
- submitted as separate files, not embedded in text files

Color illustrations will be considered for publication; however, the author will be required to bear the full cost involved in their printing and publication. The charge for the first page with color is \$900.00. The next three pages with color are \$450.00 each. A custom quote will be provided for color art totaling more than 4 journal pages. Good-quality color prints or files should be provided in their final size. The publisher has the right to refuse publication of color prints deemed unacceptable.

Tables and Figures

Tables and figures should not be embedded in the text, but should be included as separate sheets or files. A short descriptive title should appear above each table with a clear legend and any footnotes suitably identified below. All units must be included. Figures should be completely labeled, taking into account necessary size reduction. Captions should be typed and double-spaced, on a separate sheet. For paper submission, all original figures should be clearly marked in pencil on the reverse side with the number, author's name, and top edge indicated.

Proofs

One set of proofs is sent to the author via email. Proofs should be carefully checked and returned promptly.

Reprints

Reprints of individual articles are available for order at the time authors review page proofs. A discount on reprints is available to authors who order before print publication.
